

Fiberglass Steps

- Steps constructed of heavy-duty treated plywood and 2 x 4s designed to last decades even under heavy water contact.
- Deep-penetrating treatment protects all exterior and interior wood against rotting, warping and other decay.
- Grooved nails give superior strength in key bracing areas.
- Fiberglass and resin exterior coating provides strength and durability.
- White or sand exterior with special "Black Buckshot" finish for added visual appeal.
- Slip-resistant texture on all treads and landings for additional safety.

Pressure Treated Steps

These sturdy pine-treaded steps, attached to a super-strong, cross-braced metal frame, offer attractive access to any mobile home at an economical price. Step tread on the 29" wide step is 9-1/2" wide. On the 36" wide step, the tread is 11-1/2" wide.

Two Step

350901 18" H; 12/Ctn.

350902 Hand Rail; 5/Ctn.

Three Step

351001 26" H x 29" W; 12/Ctn.

351002 Rail for 351001; 5/Ctn.

351005 26" H x 36" W

351006 Rail for 351005

Four Step

351101 34" H x 29" W

351004 Rail f/29" 4 Step; 5/Ctn.

351007 34" H x 36" W; 12/Ctn.*

351008 Rail for 36" 4 Step

*The 36" wide not available at all locations.

Steps with Half Platform & Rail

Two steps with the third step being a 19" x 29" half platform with rail for safety.

351050 10/Ctn.

Three steps with the fourth step being a 19" x 29" half platform with rail for safety.

351052 10/Ctn.

Half Platform & Rail Kit

Platform and rail attaches easily to steps for an attractive addition.

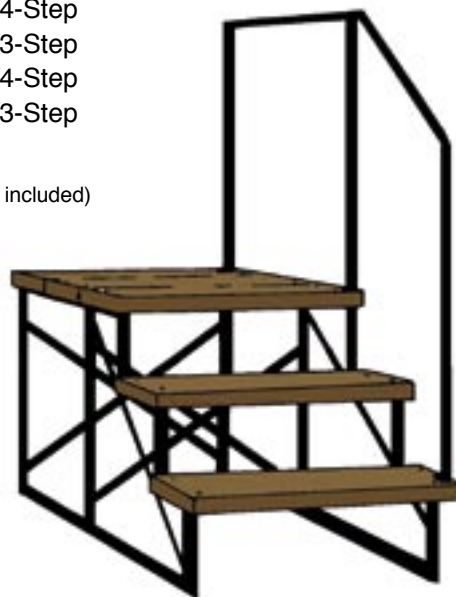

351056 19" D x 29" W f/4-Step

351057 24" D x 36" W f/3-Step

351058 24" D x 36" W f/4-Step

351055 19" D x 29" W f/3-Step

(Shown with three step: NOT included)

**WHY KEYSTONE
DECKS ARE BETTER
THAN SITE-BUILT
DECKS:**

Better value:

Volume production lowers
cost.

**Meets national
building standards**

**Factory-built to
exacting standards
and quality controls**

**Grows with
homeowner's needs**

**Free-standing
design:**

Avoids many of the
interface problems with
attached decks-- vibration,
expansion, etc.

**New Generation
treated wood:**

Southern Yellow Pine is
pressure-treated with new,
safer alkaline copper
quartary, not arsenates.

**Immediately
available from your
parts distributor:**

No more unpredictable
prices or scheduling
hassles.

Financing available:

Most lenders accept
Keystone products into the
original mortgage.

**Limited lifetime
warranty:**

Covers termites, decay and
defects.

**No nails, no screws,
NO SWEAT!**

Installation is so simple it
can be done by anyone.

KEYSTONE

EXTERIOR DESIGNS

REVOLUTIONARY

Keystone Exterior Designs adapted the time-tested strength of the keystone to
create **an innovative connector** for joining wood.

STRONG

Because we use only **the finest high tensile steel** with yield specifications in
excess of 35,000 PSI, these patent-pending connectors have a **much higher**
load-bearing capacity than traditional methods.

FAST & EASY ASSEMBLY

All you do is slide the pieces together!

VERSATILE, EXPANDABLE & PORTABLE

Our decks use an ingenious 4' x 4' **joist grid system** and interchangeable rails
and posts, so the configurations are virtually **limitless** and the deck can be
easily moved or expanded at any time.

WARRANTY

Limited lifetime warranty protects your investment!

Beautiful Decks to Fit Every Need!

Basic 4' x 4' Deck

Ideal for side doors or front entries where space is limited or economy needed. And because all Keystone products are expandable, this basic unit can grow as your needs change.

4' x 8' Deck

Recommended for an attractive front entry. Steps may be installed on any or all sides. This style may be easily expanded to whatever width you prefer.

8' x 8' Deck

Popular starter deck has room for grilling and outdoor enjoyment. Steps may be installed on any or all sides.

8' x 12' Deck

Big enough for a table and extra chairs, so invite the neighbors!

8' x 12' Deck with Landing

A full-size deck to satisfy most families needs for grilling, dining and gathering. The landing greatly enhances the beauty and useful space. It's portable, too; when you move, just take it along!

Residential Deck System Overview

The system is a selection of standard components that fit together to build a wide variety of deck configurations. It's easy to assemble. A patented connector allows these components to be assembled in minutes because nails and screws are not required on the job site. The components are interchangeable, so a wide variety of configurations and sizes are possible. The structure is free-standing as recommended for manufactured home applications. All configurations meet national building standards.

Interchangeable Component List

SUPPORT POSTS

Decks are all free-standing on their own posts. Each post is equipped with factory-installed connectors to accept the attachment of mating components. There are specialized posts for use in various parts of the deck:

HOUSE POSTS support the joist under the house door and allow RAIL SECTIONS to be installed perpendicular to house.

CORNER POSTS allow RAIL SECTIONS to make a 90° turn.

LINE POSTS support JOIST ends and allow RAIL SECTIONS to continue in a straight line.

SUB-DECK POSTS provide JOIST support wherever the deck surface spans more than 8 ft.

All posts are offered in discrete lengths which correspond to 7-1/2" stair risers.

RAIL SECTIONS

These components are completely assembled in the factory and are shipped with factory installed connectors to attach quickly and securely to the POSTS. The outboard deck joist is an integral part of the RAIL SECTION. RAIL SECTIONS are only offered in 4' and 8' lengths.

JOISTS

These load-bearing components form the 4' x 4' grid upon which the DECK FLOOR SECTIONS are placed. The joists are fitted with factory-installed connectors for attachment to POSTS or RAILS. JOISTS are offered in only 4' and 8' lengths.

DECK FLOOR SECTIONS

Deck floor sections are pre-assembled in the factory. These interchangeable sections nest into the patented 4' x 4' joist grid system. Deck floor sections are provided with TIE DOWN KITS. Deck floor sections are offered in 2' x 8' sections OR 4' x 4' sections.

ENTRY RAIL SECTIONS

These rail sections are assembled in the factory and are fitted with connectors to attach to SUPPORT POSTS and to accept STAIR RAIL SECTIONS.

Substitute ENTRY RAIL SECTIONS for the 8' RAIL SECTION when a stairway or landing needs to be attached.

ENTRY RAIL SECTIONS are only offered in 8' lengths with center entry. Entry 8' rail section is interchangeable with all 8' rail sections, so entry can be placed as needed.

STEP RAIL SECTIONS

Step rail sections are pre-assembled in the factory and are equipped with connectors to attach directly to ENTRY RAIL SECTIONS. Step rail sections are equipped with connectors to accept STAIR TREAD installation and are offered in RIGHT or LEFT (facing the deck) in lengths for 1 to 7 stair treads.

Custom sizes and shapes are also available.
